Marcia Speier, CHT, B. MSC
HYPNOSIS FOR CONSCIOUS HEALTH

CLIENT INFORMATION STATEMENT

NOTICE: As the state of California has not adopted educational and training standards for the practice of hypnotherapy, this statement is for informational purposes only.

- Hypnosis is a self-regulating profession and the State of California does not license its practitioners. I am not a physician or a licensed health care provider and may not provide a medical diagnosis nor recommend discontinuance of medically prescribed treatments. If a client desires a diagnosis or any other type of treatment from a different practitioner, the client may seek such services at any time. A client has a right to be free of physical, verbal or sexual abuse. A client has a right to know the expected duration of treatment, and may assert any right without retaliation.
- In the event you are not satisfied with my services, I request that you speak to me promptly and personally about your concern. I feel confident we can arrive at a mutually agreeable solution to your concerns.
- I accept cash, checks, money orders, or payments through my PayPal Account. Upon your request, I will provide you with the documentation necessary to bill your insurance company. Your policy coverage ultimately determines if there will be any reimbursement. My cancellation policy reads: **Appointments missed with less than 24 hours notice will be fully charged.**
- I will not release any information to anyone without authorization from you, except as provided by law.
- I have been a professional hypnotherapist for 28 years. My approach to client care is to work with the client as a partner, guiding you toward your goals using hypnosis. I also draw on my metaphysical skills to deepen the positive outcome of your sessions. The work I do is considered to be alternative or complementary to healing arts services licensed by the state.
- The number of sessions generally will vary from 2-9 visits depending upon the behavior modification desired. Sessions are designed with the client to meet individual needs. Please be informed that I do not treat emotional, medical or psychological disorders, but use verbal directions, while you are relaxed, to guide you in meeting your stated goals.
